THE yellow-fever has broken out at Forrest City, Arkansas. When it is remembered that the governor of that State proclaimed quarantine as soon as the first case occurred here, and that shotgun squads and cavalry pickets have been guarding the rivers and railroads, it is hardly probable that the Arkansas cases can be traced to Memphis.

THE heavy death list of yesterday should prove a warning to any of our people who have contemplated returning to their homes before the announcement that such a movement is safe. Thirteen deaths from yellowfever occurred in Memphis and its suburbs yesterday. While none of these victims were returned refugees, there are several of that class now very ill. At the earliest moment when they can return without danger, absentees will be informed of the fact.

THE OHIO ELECTION.

A Heavy Vote Polled for Ewing and Foster, and a Light One for the Greenback Ticket.

Special to the Appeal.

COLUMBUS, O., October 14.-Indications are that the heaviest vote ever known in the State has been polled. In these dispatches statements of losses and gains will be based upon the vote for secretary of state in 1878, when the Republicans carried the State by day passed off quietly. A large vote was

Merritt moved upon the agency, and reached there Saturday. The Indians are retreating southward, and it is expected that in small bands they will drop into various agencies, and, thus covering up themselves, it will never be known who were the warriors who opened fire on Thornburgh. The dismounted compa-nies and wounded will be here in seven days. THE INDIAN LOSS.

Lake City, Colorado, October 10, 1879.

To Governor Pitkin;

Rehable news comes from the Los Pinos agency that Sapavanevis, one of the most reliable sub-chiefs who was sent by Ouray to White river agency, after news of the fight had been received by Ouray, returned from Milk river yesterday, at eleven believen to clock. He reports that he saw the white men and women at White river agency in charge of Chief Donglas; also one of the employes who was present when the Indians made the attack upon the agency. This man killed one Indian and wounded another. Sapavanevis thinks that three or four more employes are alive, as their tracks were seen around the agency building, and they may have fled of Orray while new as on a buffalo hunt on the control of Orray while new as on a buffalo hunt on the control of Orray while new as on a buffalo hunt on the control of Orray while new as on a buffalo hunt on the control of the courty which will make them formidable enemies and the war protracted and expensive.

as yet unsuccessfully. The government ought, as he thinks, to assist him and get the boy back. Ouray last year gave strong proof of his determination to keep his people quiet by the summary punishment of O-se paw, a Ute medicine-chief, who was, if possible, even more restless and troublesome than Colorow. He was constantly traveling from the White river agency to the southern Ute country, experiments of the Utes and and average to set citing all the Utes and endeavoring to ge them to join him in an attack upon the whites, claiming that they had been defrauded by the Brunot treaty, and the whites ought not to be sllowed to remain in the San Juan country. Ouray say that he was getting quite a strong party on his side, and so to stop the trouble after an angry controversy, as he was leaving the council, in the act of mounting his horse,

CHICAGO, October 13 .- An accident occurred this evening at Maywood, on the North-

VA., October 12.—Passenger trains No. 1, going east, which left this city at half-past eight o'clock last evening, and the Baltimore Express No. 10, coming west last night on the Baltimore and Ohio railroad, collided near Bellton about halfpast ten o'clock. Both trains were running at the rate of forty miles an hour, and were well filled with passengers, who miraculously escaped injury, with the exception of a little girl, who was slightly hurt about the face. James Askew, engineer, and John Smith, fireman of train No. 1, were instantly killed, while fireman Jasper, of train No. 10, was to his home at Fairmount, West Virginia, where he now lies in a critical condition. Both engines are total wrecks, and a refrigerator car containing butter was crushed to pieces. The postal and baggage cars of both

It was at first rumored that Mary Anderson hersel had shot her agent and then killed herself The streets surrounding the hotel were crowded with a throng never but once ex-ceeded in sife, and that was when Horace Greeley visited Cincinnati in 1872. The history of the case is this:

Mary Auderson played a most successful engagement last week at Pike's opera-house. Mr. Hickey, her agent, made himself quite conspicuous during this time by his more than friendly relations with Miss Anderson and her stepfather, Dr. Griffin. A few minutes after Hickey entered it, the sharp report of a pistol-shot rang through the corridors, startling the clerks and guests in the office area.
